### Vacancies on the LMC

Following the resignation of Dr Clitherow to take up a role at the SCE, there is a

vacancy on the LMC which will run for the remainder of the current electoral term to 31<sup>st</sup> March 2016. Members can co-opt to these positions without the need for an election.

There is an attendance fee for meetings, which are currently held on the second Monday evening of each month except August.

The LMC's primary function is to represent Rotherham GPs as primary health providers and, therefore, it is important that local GPs have a means of debating the important topical issues and influencing policy in order to represent the breadth of general practice in Rotherham.

Further details of the work of the LMC can be found on our website at: -

### PMS Reviews

At a recent PLT event, the Area Team gave a presentation to Rotherham practices alleging that PMS

practices will lose the money released by the reduced QOF points as there was no guidance to put it into baseline. This has caused much disquiet amongst practices.

We have contacted the GPC about this and *Richard Vautrey at the GPC noted of the Area Team - "They are wrong in that none of the transferred money will be lost. It will inflate global sum weighted pounds per patient in GMS practices and this will inflate the comparative baseline for PMS practices. However PMS practices will lose money from their "PMS Premium" - the money identified by NHS England that is being paid to PMS practices in excess of GMS practices"*.

NHS England has in fact identified £325m of "premium" PMS expenditure. This is the amount by which PMS expenditure exceeds the equivalent items of GMS expenditure. The premium will reduce to £235m over 7 years as GMS correction factor funding is phased out and global sum funding increases. Further information available here:

---

The Area Team has two years from April 2014 to review their local PMS contracts, to ensure that funds are spent appropriately. The LMC are there to support practices in ensuring the process is managed fairly.

### **Catch-up Screening for immunisation**

The LMC has mixed feelings about this proposal, as the £1.50 per patient offer for parts 3 and 4 does not cover postage / admin costs and so any practice signing up for this deal may lose money on it. Therefore practices need to consider carefully the financial impact.

---

### **Public Health Contracts**

The LMC have been informed that the standard public health contract from the Department of Health will be used for public health contracts. One of the key points of difference was the level of public liability (£10m) and employers' liability (£5m) per practice for all public health contracts. Practices should take note that they can meet these insurance requirements, contained within the 80 page+ documentation.
